WORK EXPERIENCE

ClassLink **Clifton, NJ**
Product Manager, LaunchPad *October 2024 – Present*

- Lead product management for LaunchPad, ClassLink's flagship platform serving millions of K-12 users, including LaunchPad Mobile on iOS and Android.
- Manage over 20 microservice repositories while working closely with engineering leadership to deliver scalable mobile performance and reduce time-to-market.
- Successfully launched two 0→1 products, AppTrack and ThreatScan, expanding ClassLink's portfolio into app usage analytics and proactive dark web monitoring
- Directly manage 3 cross-functional teams of three developers and two QA engineers each, providing mentorship and career growth opportunities
- Translate product strategy into requirements, user stories, and prototypes, maintaining a customer-impact-driven backlog.
- Drive beta and pilot programs, product demos, and customer interviews to validate features and refine user journeys.
- Collaborate with sales, customer success, and leadership to gather insights and refine market fit, ensuring alignment to district needs.
- Utilize AI tools for backlog refinement, customer feedback analysis, and product launch optimization.
- Act as a product evangelist, building internal and external awareness and securing stakeholder buy-in.

PowerSchool (NYSE: PWSC) **Folsom, CA**
Product Manager, MyPowerHub Platform *March 2023 – October 2024*

- Spearheaded the creation and launch of PowerSchool's UX design system, Neon, enhancing interface consistency across 41+ SaaS products.
- Elevated MyPowerHub's user experience, leading user research and backlog prioritization which increased platform usability scores by 30% measured through Gainsight PX.
- Orchestrated the redesign of the student and parent portals by championing design thinking and rapid prototyping in Figma, resulting in the successful launch of two major product releases.
- Delivered strategic insights to EVP and VP-level executives, influencing decision-making and securing buy-in for user-centric product enhancements.

Senior Product Owner, My PowerSchool Platform *April 2022 – March 2023*

- Drove product strategy for a multi-module platform, incorporating market strategy and digital transformation initiatives that enhanced student admissions and tuition management processes.
- Led Agile ceremonies like Program Increment (PI) Planning, improving roadmap execution efficiency by 25%, and fostering cross-functional team alignment.
- Mentored a team of new product managers, enhancing their skills in customer research gathering, leading to a 5% faster go-to-market timeline for new features.

Project Manager, Strategy & Operations *February 2021 – April 2022*

- Facilitated organizational readiness for PowerSchool SIS feature launches, which led to a 4% CSAT improvement in user adoption rate consistently post-launch.
- Cultivated an Agile community of practice, sharing best practices and implementing Jira restructuring to improve feature delivery by 30% across the organization.

Proposal Manager, Sales Operations *March 2020 – February 2021*

- Aligned cross-departmental proposal efforts, increasing win rates by 10% in the next quarter,
- Upgraded database algorithms, using customer experience insights to raise lead quality by 25%.

Proposal and Market Research Intern, Sales Operations *September 2019 – March 2020*

- Performed market research, employing design thinking for targeted marketing campaigns, elevating engagement by 20% from last quarter.

EDUCATION

University of California, Davis **Davis, CA**
